Boost Your IP Intelligence With Insights into Licensing and Transactional Behaviors

1 Search

2 Review Results

3 Analyze

Boost your intellectual property (IP) intelligence with insights into licensing and transactional behaviors. ktMINE Agreements is your go-to resource when questions around license agreements arise. With an array of agreement types and search filters, you have the flexibility to refine your search to fit your specific project needs. ktMINE Agreements significantly reduces research time, maximizes your analysis power and supports your decisions with market evidence.

Quickly Determine Value

Discerning the value of an IP asset can be difficult since not all licensing arrangements are made public. These agreements are used to benchmark royalty rates, perform valuations, and review deal structures. With ktMINE Agreements, quickly find comparable licensing transactions and disclosed royalty rates without hours of painful digging.

Credible and Accelerated Analyses

Refine your analysis with specific IP types such as patent, know-how, trademark, likeness, services, trade secrets, software, and more. Nearly 80% of licenses cover territories outside the United States for large, medium, and small size companies, both public and private. Narrow results with one-click responsive filters and continue your analysis with access to agreement summary profiles and the full-text of the document. Export and save for easy future review.

Robust Analytics

Engage with analytics by pinpointing data requiring action. Not only do Analytics provide payment trends, agreement company connections, and licensed patents, they allow you to explore the agreements in detail. Increase your analysis power with market intelligence for confident decision-making.

Expanding IP & Licensing Intelligence

IP Intelligence of licensing transactions has typically been limited to experts in the field due to the misconception that agreements are not made public. With ktMINE Agreements, dispel that myth and uncover game-changing insights gleaned from publicly available license agreements. Support IP licensing and valuation with market evidence.

ktMINE Agreements App

Gain insight into licensing and transactional behaviors of companies' intellectual property in an industry or sector.

1 Search

With a repository of over 115,000 global agreements, a wide range of agreement types, and powerful filters, search the most extensive database of agreements.

- ▲ Search by full text, company, date, geography, industry, patents, and more
- ▲ Derived by analyst reviewed summaries
- ▲ Create simple or sophisticated searches

2 Review Results

Quickly scan results by reviewing summaries and key licensing information.

- ▲ Narrow results with one-click filters
- ▲ Access analyst derived profiles
- ▲ View royalties, patents, parties, and other relevant data points
- ▲ Dive deep into full text files

3 Analyze

Analyze using the method that is most convenient to you. Export the documents as needed, save searches, and save agreements as a set for future review. In-depth profiles with connected patent data reveal insights without the painful digging. Big picture context and trends for an entire set of agreements such as royalty rate trends, connected parties, and licensed patents are illustrated in Analytics.
